<b>DC0338</b> Rawhide (2% Load)	Saddlesoap (4% Load)	<b>DC0775</b> Sedona (2% Load)	Arizona (4% Load)

**CurbColors™ is sold by the case, 25 1-lbs. bags per case. See back for mixing instructions.**

Use Portland cement only. Assuming a 47 lbs. sack of Portland, 1 case of color provides integral coloring for up to 400 linear feet of curb at a 2% load (1 bag of color = 2% load); or, up to 200 linear feet at 4% load (2 bags of color = 4% load).

This chart should only be used as a guide only, and we suggest that samples be made before determining color choice. These colors may not represent the final color as shade variations can be influenced by a number of factors, including the sand, water, cement, etc. used in the mix, as well as other external factors.
